

COVID-19 Vaccine and Infusion Code Fee Schedule

The Centers for Medicare and Medicaid Services (CMS) have announced new Healthcare Common Procedure Coding System (HCPCS) codes for healthcare providers to use when treating patients for the novel coronavirus (COVID-19). Additionally, The American Medical Association (AMA) has announced new vaccine-specific Current Procedural Terminology (CPT®) codes to report immunizations for the novel coronavirus (SARS-CoV-2). In response, the Medicaid fee-for-service (FFS) program is reimbursing for these codes at 100% of the Medicare reimbursement rate. The following fee schedule is a summary of the codes, their descriptions, their effective dates, and the FFS reimbursement rate.

NOTE: Institutional providers should bill for vaccine and vaccine administration on a professional claim to receive reimbursement.

If you have any questions about the contents of this fee schedule, please contact Christa Smith at christa.smith@maryland.gov.

For questions related to MCOs and Self-Referral Services, please contact Aran Kim at aran.kim@maryland.gov.

COVID-19 Vaccine and Infusion Codes Fee Schedule

Vaccination products will be made available to providers at no cost by the federal government for the foreseeable future; therefore, only the cost of administration will be reimbursed. FFS Medicaid intends to reimburse for vaccine administration in alignment with the Medicare rate.

COVID-19 Vaccine Counseling

Effective January 1, 2022, Maryland Medicaid will reimburse for preventative medicine counseling and/or risk factor reduction intervention(s) that are provided to an individual, up to 15 minutes, for counseling of Maryland Medicaid participants regarding the benefits of receiving the COVID-19 vaccine. This benefit is available to Medicaid participants 20 years of age and under. Parents or guardians of Medicaid children may be counseled on the child's behalf regarding benefit of receiving the COVID-19 vaccination. Providers should bill for this counseling using the child's Medical Assistance number. Only one code can be billed per day.

In order to be reimbursed, providers must bill 99401 with the CR modifier. The GT/UB modifier should also be utilized if the service is provided via telehealth. Only physicians, nurse practitioners, and physician assistants may render this service.
