

TennCare 90 Day Supply Medication List

September 1, 2021

Effective September 1, 2021 TennCare will have a 90 day supply medication list. This list gives providers the option of prescribing and dispensing certain widely used medications in quantities up to, but not more than, a 90 day supply. Only one co-payment is collected from the recipient and only one dispensing fee is paid to the dispensing provider for the 3-month supply.

Attached are the current medications on the list, which can also be found at www.optumrx.com/tenncare.

This list is independent of the preferred drug list (PDL) and other criteria. All drugs on this list are still subject to existing TennCare edits, including nonpreferred status on the PDL, clinical criteria, step therapy criteria, and quantity limits.

This plan specification change will apply to TennCare Medicaid claims only.

Drug Name by Therapeutic Class	
ACE Inhibitors & Combos	Androgen Hormone Inhibitors
